

FOR IMMEDIATE RELEASE

New CAD Training Tools and PLM Solutions Presented by Design Visionaries
Design Visionaries Exhibits at UGS Connection Americas 2007 Annual Users
Conference

San Jose, CA – April, 2007 –Design Visionaries will be exhibiting in booth 65 at the UGS Connection Americas 2007 Annual Users Conference, at the Long Beach Convention Center in Long Beach, Calif., April 23-27.

Design Visionaries will be introducing several new products and services at the show. The new line of Web-based Training Tools is comprised of short training videos. The first in the series, NX5 Tutorial, will quickly get you up-to-speed with the new NX5 interface. Learn about the new DV Mentornet, a remote mentoring service. And how all DV's training services can help you master NX, Teamcenter, and other CAD software. Design Visionaries now offers a complete product lifecycle management solution for global collaboration needs.

Design Visionaries invites you to hear Stephen Samuel, President of Design Visionaries, speak about "*Creative Product Design, NX4 & NX5*" on Thursday, April 26 at 9:30 a.m. in Room 104A. Steve has been presenting on NX and engineering design for over 10 years! Steve will be talking about how to incorporate and augment your creative design process by using NX4 and NX5 software. He will show you expert tips and tricks of the trade culled from his years of experience and top-selling NX manuals.

Visit Design Visionaries at booth 65 and learn how Design Visionaries can provide custom in-person and web-based training, product lifecycle management solutions, software sales, NX and Teamcenter training manuals, product and industrial design, and more.

About Design Visionaries

Design Visionaries offers a unique blend of engineering-related products and engineering know-how. With over 100 years of combined experience, Design Visionaries is fortunate to have extremely talented, highly qualified, creative professionals available to supply an extraordinary array of design and engineering services. Design Visionaries' knowledge and experience span a large range of engineering disciplines and industries. The team has worked in the fields of aerospace, medical, automotive, industrial, and consumer products to mention a few. Let Design Visionaries help you accelerate your product development through process innovation, and global collaboration.
