

FOR IMMEDIATE RELEASE

New Website, Blog Offers Resources for Engineers

Design Visionaries Launches Completely Redesigned Website, Blog for Engineers

San Jose, CA –August, 2007 –Design Visionaries launched its completely redesigned website www.designviz.com in April, 2007, with a vibrant new look. The new site offers visitors dramatic improvements in navigation, uniformity, and appearance.

With eye-catching images, the new pages introduce visitors to Design Visionaries. The online visitor has instant access to the web site's major topic areas that allow browsing and searching through information about products, services and resources. The pages work in intuitive and consistent ways, making it easier for visitors to find what they are looking for and know where they are within the web site.

In addition, Inside Design Visionaries launched last winter. Inside Design Visionaries is a frequently updated blog covering issues such as, engineering, design, goings-on within Design Visionaries and all things interesting to the Design Visionaries team.

New features on the web site include a calendar of upcoming training classes, many interesting links, free tutorials, access to the Design Visionaries blog and a What's New section.

Although new, the site will be frequently updated with useful information.

About Design Visionaries
