FOR IMMEDIATE RELEASE

“Solving Difficult Design Engineering Challenges with High-End CAD” – Presentation by Design Visionaries at the Bay Area CDI - CAD Event

San Jose, CA – March 16, 2005 – Design Visionaries, Inc., provider of top quality mechanical engineering and CAD services, invites you to the presentation entitled “Solving Difficult Design Engineering Challenges with High-End CAD”. The presentation will be held at 6:00pm on March 23rd, 2005 at the Bay Area CDI-CAD Event, hosted by DeAnza College, Cupertino.

In his presentation, President Stephen Samuel will demonstrate how Unigraphics, if used well, can quickly and effectively deal with Design Engineering Challenges. “UGNX is high-end software that is very easy to use and is a great benefit to Design Engineering.,” says Samuel. “There are certain modeling techniques that are uniquely UGNX that enable rapid product design engineering.” Through several interesting industry examples, this speech will detail many of these techniques. Moreover, Stephen will share some experiences that will illustrate the day to day joy of design engineering in general. Stephen will also introduce Design Visionaries brand new book, *Practical Unigraphics NX3 Modeling, Drafting, and Assemblies*, the only book in the world that teaches how to use UG NX3 to perform difficult design jobs.

With over a 100 years of combined Unigraphics experience, the Design Visionaries team members have become experts at applying Unigraphics-based computer aided design to many of the most difficult design engineering challenges available. Through the engineering consulting projects that have been entrusted to Design Visionaries, the team has worked in the fields of aerospace, medical, automotive, industrial, and consumer products to mention a few. The world’s top design firms, who are enabled improvement of all phases of their design process after graduation from our UG courses, continue to choose Design Visionaries as a Unigraphics mentor for their engineers.

Bay Area CDI CAD Program and CAD-Engineering Job Fair is a complimentary event hosted by DeAnza College in Cupertino from 5pm – 8pm on March 23rd at the Campus Center. We advise that you bring 8 quarters for parking. Please refer to the following maps for specific location:
