

PRESS RELEASE

FOR IMMEDIATE RELEASE

Design Visionaries Partners with UGS PLM Solutions –UG Modeling, Manufacturing and TeamCenter Modules Available.

San Jose, CA – July 2004 – Design Visionaries, Inc., provider of top quality mechanical engineering and CAD services, is excited to introduce our newly formed partnership with UGS PLM Solutions, as a Value-Added Reseller for Unigraphics Software. In addition to high-quality product design, mechanical engineering, and CAD training services, we now offer you UG modeling, manufacturing and TeamCenter modules along with excellent services required to fully utilize them.

With over a 100 years of combined CAD experience, the Design Visionaries team members have become experts at applying high-end computer aided design to many of the most difficult design engineering challenges available. Through the engineering consulting projects that have been entrusted to Design Visionaries, the team has worked in the fields of aerospace, medical, automotive, industrial, consumer products and others. The world's top design firms, who have been afforded improvement of all phases of their design process after graduation from our UG and ProE courses, continue to choose Design Visionaries as a Unigraphics and ProEngineer mentor for their engineers.

DPET is available for use at the Design Visionaries Goodies Page http://www.designviz.com/Designer_goodies.htm. Please refer to the top of the "Goodies" Page. A CD-version of DPET is available for \$39.00 by contacting Design Visionaries at (408) 997-6323. We may customize DPET to reflect your specific project requirements. For more information regarding DPET and Design Visionaries, Inc. log on to www.designviz.com or contact us at (408) 997-6323.
